## Letter of Support for Recognition.

Dear Lindsay,

We are so happy that you came to Raukkan and shared the most important information about Recognition and the journey that the Elders of Recognition invite us to join them on.

The time that you spent talking with community was so important and appreciated by all who attended and even by those who heard from those who attended.

Our Council members were very touched by your passion and God driven faith that keeps you going to many communities like us.

It is because of your visit we want to give our support and agree with Recognition that this message is important for the whole nation.

Please accept this letter as our letter of Support for Recognition to speak on our behalf and act for us as you continue to move towards the Botany Bay day of Recognition.

We hope to hear of other Aboriginal community's commitment to this most important ministry.

Yours Sincerely,

Clyde Rigney

On behalf of Raukkan Community Council.
